

The DoctorPodcasting System

YOUR Podcasts. Featuring YOUR Doctors. Heard on YOUR Website.

DONE FOR YOU:

- Exclusive Content Creation: Featuring interviews with your doctors/providers to engage and educate your audience.
- Multi-Platform Accessibility: We distribute your content via your website, social media, and popular podcast platforms.
- Enhanced Engagement: Communicate important health issues using the power of podcasts (video; audio).
- Strengthen your hospital's reputation and brand, attract and retain new patients, build lasting relationships, and give your doctors a voice.

55% of Adults consume podcasts every day (2025 stat).

Connect via their preferred format through podcasting. Speak to your consumers using your doctors' and providers' voices, offering unique content not found anywhere else.

Easy, Fast, Professional, and Affordable:

1. Choose your target audience: Consumers, referring physicians, or your internal staff. Or all three.
2. Let us know who your podcast guest will be -- and the topic.
3. We schedule the recording with your doctors or other healthcare professionals.
4. Our professional talk hosts will have compelling conversations with your providers (or use your internal talk talent), recorded remotely through a convenient online studio connection.
5. Professional editing and audio enhancement of your video and audio podcast episodes are provided. Ready for your approval.
6. Distribution. Posted on a player widget, easily embedded on your website and sent to the major podcast directories (Apple, Spotify, iHeart, YouTube, and more). Ready to share across your social media.
7. CONTENT BUFFET. Additional custom-produced content free with every podcast package.
